

Arizona Department of Education
K-12 Standards is pleased to host

Arthur Beauchamp presents

Success in Science Through Dialogue, Reading, and Writing

February 24 & 25, 2016

8:30–3:30

Audience: Grades 6–12 Science Teachers, Coaches, and Specialists

Cost: \$225 per participant

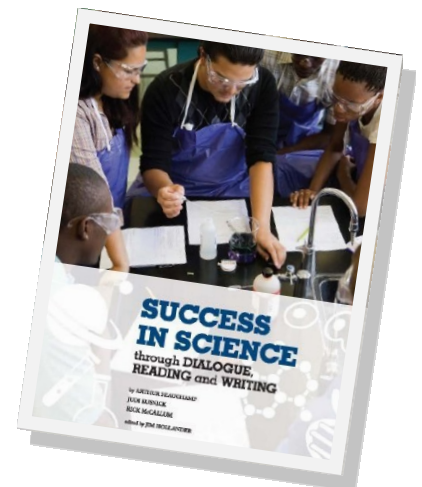

Learn how to deepen student understanding of science concepts through science literacy. Experience a framework for designing lessons that incorporate dialogue, reading, and writing into instruction. Integrate science literacy into instruction and work with tools for structuring lessons that increase student engagement and the quality of student writing in science.

Participants will receive a copy of Success in Science through Dialogue, Reading and Writing

In this course teachers will experience:

- The Science Literacy Framework©
- Science literacy techniques for student discourse
- Techniques for engaging secondary science students in dialogue, reading, and writing
- Techniques for managing student writing in the science classroom
